

Your dental operations manual, finally automated.

Stop running the practice on spreadsheets and clipboards. OfficeBook.app tracks staff licenses, equipment maintenance, and daily clinical checklists in one place—so single offices and multi-location groups stay audit-ready without the scramble.

Staff & license compliance

Track dentist and hygienist licenses, BLS/CPR, CE, and insurance. Automated reminders flag what's upcoming or expired before it becomes a problem.

Equipment

Schedule autoclave cycles, compressor service, X-ray inspections, and other recurring maintenance—with a digital log for every visit and repair.

Documentation & checklists

Digitize opening/closing checklists, HIPAA reviews, and safety walks. Assign tasks, require photo proof, and see completion in real time—with a full audit log of who did what and when.

Built for practices and DSOs

Whether you manage one chairside team or a regional network, OfficeBook.app gives every location a shared playbook—with the right visibility for each role.

- ✓ **Multi-location control** — organizations, facilities, and role-based access in one account
- ✓ **Live compliance dashboard** — see what's due across staff, equipment, and tasks at a glance
- ✓ **Calendar & reminders** — email and in-app alerts before deadlines hit
- ✓ **Audit log** — keep a clear record of completions, changes, and activity for surveys and reviews
- ✓ **Reporting for leadership** — compliance snapshots and custom reports for owners and admins
- ✓ **Document library** — policies and procedures with staff attestation when you need proof

Compliance Overview

95% Compliant

 Dr. Sarah Chen — License	Overdue
